The SIYA™ Pendant Light

The SIYA™ pendant light is another foray into versatile, classy lighting that works especially well in both hospitality and psuedo-professional settings. The SIYA™ comes in three sizes that bring with it the option to create a multi-fixture canopy that brings quite a bit of illumination to a location as well as bringing an immersive lighting experience and feast for the eyes.

The **SIYA™** is a big, beautiful pendant light that radiates well and provides luminance with big style and robust presence. Some key features are as follows:

- The **SIYA™** comes in three sizes--12", 24", and 36" diameters. We've gotten a consensus feedback from interior designers and contractors that this range works perfectly in multiple locations throughout their projects and we couldn't be happier hearing that!
- Being able to customize both the interior and exterior finishes of this fixture has been a great point of interest for when architects and lighting designers are paying special attention to the hues and tonalities that they are trying to set in their environments--the **SIYA™** delivers.

The **SIYA™** brings 'Big Lighting' to spaces needing an upgrade in both illumination and personality and this fixture delivers both in abundance!

Community College | Study Hall

"The **SIYA™** is big style and robust radiance made in a way that isn't overbearing nor does it overshadow any location. It's just great lighting."
